

2006 NOAA Restoration Day

Supplies for Volunteers to Bring:

- Directions!
- Underwater grasses (if you have grown them in your office/classroom. Jill Bieri will send out a separate e-mail on how to best transport the grasses.)
- Bagged lunch and/or snacks with drink. A cooler with bottled water and soda will be provided at each activity site but **NO** food will be available.
- Swimsuit and/or old clothes. If you are planting underwater grass, you will get wet!! (Quick dry fabrics work best; you will be able to change in the bathrooms at the Fish Hatchery)
- Fieldwork clothes that can get muddy and wet (shorts and t-shirts). Remember to wear your NOAA t-shirts or shirts if you have one. Quick-dry fabrics are recommended (nylon, not cotton).
- Old shoes/sneakers/Teva sandals that can get wet but will stay on securely (**NO BARE FEET ALLOWED!!**)
- Towel
- Dry change of clothes and shoes
- Plastic bag for your wet items
- Waterproof sunscreen
- Bug spray
- Binoculars (optional)
- Sunglasses
- Hat. You all will be receiving NOAA baseball caps but bring another hat if you don't want to wear a baseball cap.
- Jacket/sweatshirt (if necessary – check the weather forecast)
- Cell phone (optional, in waterproof case if taken near water)
- Work gloves (optional – some will be provided)
- Bag to hold your gear (backpack or dry bag). **NOTE:** plan to bring all necessary items with you to your activity.
- Be prepared for the weather; check the forecast before leaving your house in the morning.

If you are concerned about the weather or if you have any questions on May 31, please call the following members of the NOAA Restoration Day team on their cell phones:

Michelle Burnett 757-754-0698

Jill Bieri 757-880-8018

Paula Jasinski 804-761-3344

Andrew Larkin 757-201-8913
